

WHAT THE FOUNDATION IS SUPPORTING!

Advancing Education Bursary Award allocates funds to CSA members 25 years of age and younger. Funding awarded must be used for training for conferences and agricultural events to further skills and education in the agriculture industry.

2020 SPRING RECIPIENTS

Matt Edwards

FCSF funds went towards an artificial insemination course, Carbon, AB

Matt is currently attending the University of Saskatchewan with the goal of becoming a beef nutritionist. Matt's herd consists of both commercial and purebred Simmental genetics, they have recently started to base their herd off of a couple Simmental cows and think having the opportunity to AI will greatly improve their herd and the breed.

Ryan Edwards

FCSF funds went towards an artificial insemination course, Carbon, AB

Ryan is from the small town of Carbon, Alberta. Agriculture has played a major role in his life. Four generations of family have been a part of the agriculture industry. Ryan started his own personal herd through 4-H female projects and has been fortunate to build it into a super high quality program. There program extensively uses artificial insemination and embryo transplants in order to increase the quality of cattle, they run a herd of about 45 percentage Simmental and purebred Simmental cattle.

A LOOK BACK AT THE 2019 RECIPIENTS FCSF ADVANCING EDUCATION BURSARIES

Cathryn Thompson

"Thank you to the Friends of Canadian Simmental Association for providing this award to youth like myself who are pursuing further education and knowledge in the agriculture industry. This bursary award helped alleviate financial stress while I furthered my knowledge."

- Cathryn

Lisa Reich

"I attended the Artificial Insemination course that ran from February 27 - March 1, 2020 at Lakeland College Vermilion. There was lots of information that will help in future with insemination of my cattle. Overall I learned lots and can't wait to start inseminating my own cows. Thank you again for this opportunity."

- Lisa
